Peace Jinadu-Paul, Frontend Developer

pjinadu02@gmail.com

LINKS	Portfolio, GitHub, LinkedIn

PROFILE	Frontend Engineer with 4+ years of experience building and maintaining production-ready web applications using React, TypeScript, and modern frontend technologies. Experienced in delivering responsive, high-performance user interfaces, optimizing application performance, and collaborating with cross-functional teams to ship scalable products. Strong foundation in UI implementation, component architecture, and translating design systems into clean, maintainable code.

EMPLOYMENT HISTORY

Mar 2025 — Present

Front End Developer, Techinnover
Lagos, Nigeria

Remote

- Engineered a large-scale Progressive Web App (PWA) after native App Store rejection, delivering 20+ screens for cross-platform accessibility and seamless updates.
- Developed 15+ complex user flows, including dual-layer verification and secure transaction systems with BVN verification, reducing fraud risk for user-to-user transfers and withdrawals.
- Implemented platform-specific features, including iOS installation prompts that increased PWA adoption by 40% among iPhone users.
- Integrated geolocation-based access control and ad personalization, enabling regional compliance and targeted user experiences.
- Architected a social ecosystem with tribes, content interaction, and a rewards system ("shekels"), creating monetization pathways between advertisers and users.
- Maintained legacy codebases and collaborated with cross-functional teams and stakeholders, contributing technical input to product roadmaps and business decisions.

Mar 2023 — Apr 2024

Front End Developer, Vinhood
Milan, Italy

Remote

- Delivered 20+ production features using React.js, supporting the V2 rollout adopted across 5+ countries and achieving 98% responsive design compliance.
- Built and optimized reusable components and application screens, reducing load times on key pages by 35% across devices and browsers.
- Collaborated with developers and UI/UX designers to create a new design system and redesign the product, enabling a successful V2 launch.
- Reduced design inconsistencies by 30% through systematic UI standardization and close design-engineering collaboration.
- Participated in code reviews and upheld frontend best practices, contributing to improved code quality and fewer production issues.

Oct 2022 — Dec 2022

Front End Developer, Hotels.ng
Lagos, Nigeria

Remote

- Translated designs and wireframes into 10+ production features using React.js, achieving 95% design-to-implementation accuracy.
- Debugged and resolved 30+ frontend issues, improving application stability, page load performance, and overall user experience.
- Collaborated with a cross-functional team of 8 developers, 3 project managers, 5 designers, and backend engineers to build and deploy "Catchup," a live event-scheduling web application.
- Used Git-based version control to manage merges, maintain codebase integrity, and support efficient team collaboration.

Dec 2021 — Feb 2022

Freelance Developer & Designer, Fiverr

Remote

- Delivered custom web solutions for diverse clients, including websites, web applications, and digital assets tailored to business requirements.
- Built, debugged, and optimized frontend codebases to improve application performance, reliability, and maintainability.
- Applied Git-based version control to ensure project stability and effective change management.

- Worked directly with clients to gather requirements, provide progress updates, and deliver high-quality work on schedule.

| Dec 2017 — Jan 2022 | **Graphic Designer, Printek Graphics Limited** | *Nigeria* |

On-site

- Developed client-facing design concepts, graphics, and layouts, delivering solutions aligned with branding and business goals.
- Coordinated with external printing partners to ensure production quality, consistency, and timely delivery.
- Contributed to a 25% increase in client transactions through effective visual design and project coordination.

SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Vue.js, React Native.

Styling & Animation: Sass, Bootstrap, Tailwind CSS, Material UI, Styled Components, NativeWind, Ant Design, ShadCN, GSAP, Framer Motion.

State & Data: Redux, Zustand, Context API, Pinia, React Query.

Backend & Cloud: Firebase, Supabase, Google Cloud Platform (GCP), Vercel.

Tools & Testing: Git, GitHub, Jest, React Testing Library, Storybook, Figma, Adobe Photoshop.

Additional Skills: Responsive Design, SEO, Clear Communication, Organization, Problem-solving, Attention to Detail, Adaptability.

EDUCATION

| Sept 2018 — Dec 2023 | **BSc., Obafemi Awolowo University** |

Relevant Coursework: Operating Systems, Databases, Website Design, Algorithms, Computer Architecture, Calculus.

Activities: Google Developer Student Community.
